ATC401 No Tools Assembly Wood Enclosed A/V Component Cabinet

This refined audio/video component tower cabinet features Dark Espresso finish wood. Components are hidden behind a dark tinted tempered safety glass door that allows for remote control operation and reduces dust. It accommodates at least four audio/video components on four height-adjustable interior wood shelves with internal ventilation slots for convection cooling of those components. Drawer offers additional storage for remote controls or manuals. The integrated CMS® Cable Management System consists of two removable rear panels for easy access and management of wires and interconnect cables. This distinguished A/V cabinet features No Tools Assembly, and goes together in minutes with no tools required.
